## the SIZING

QuickPik helps you customize our products to meet your demands.

Try it now! Scan the QR code or visit:

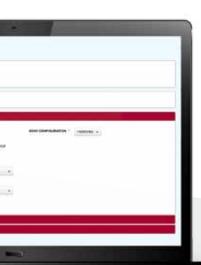

#### www.GDQuickPik.com

#### Sizing Made Simple

- Accessible information at your fingertips
- Compare & contrast blowers
- Fit technology to your exact needs
- Mobile-friendly design for your laptop, tablet & phone
- Will work off-line
- Set up and customize your profile
- Save selections for future reference

## the SUTORBILT

2MP LHC 3MR RHC 4LVR BHC 5MR RHC

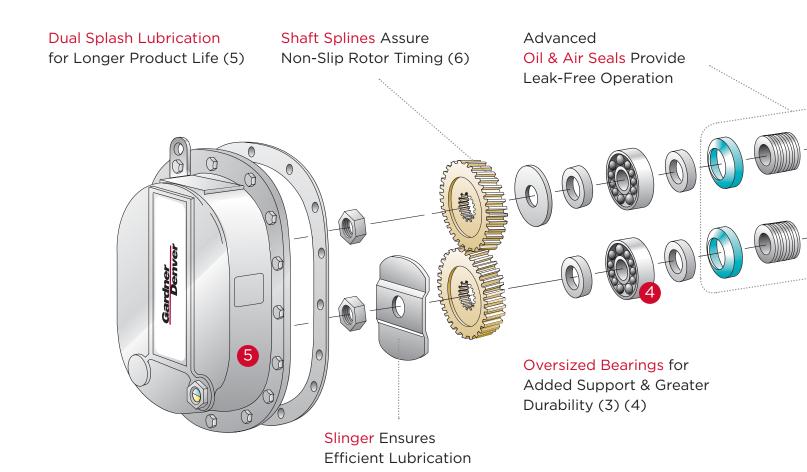

### The most versatile blower available!

## Over 240 configuration options!

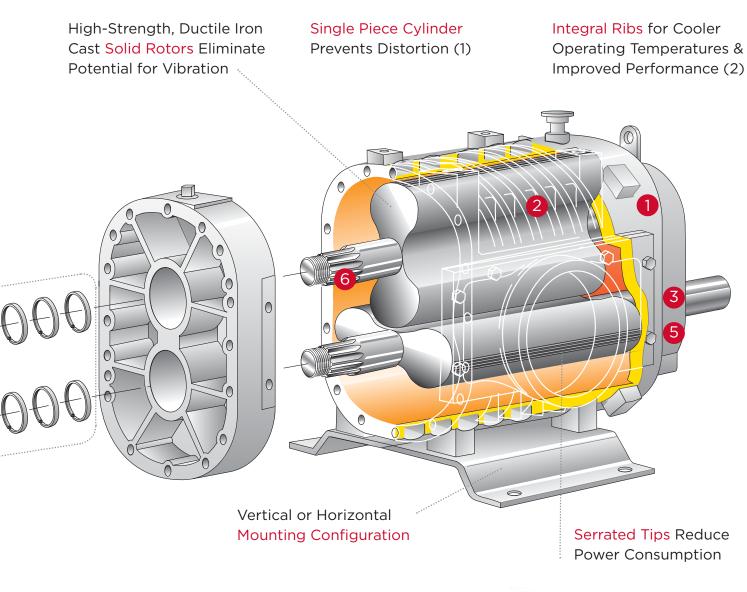

Gear Sizes	Legend <sup>2-8"</sup>	DSL Legend ³-6"	4500 6-8"	8000 10-22"
Lubrication Options	Grease	Dual Splash	Dual Splash	Dual Splash Force Feed
Seal Options	Lip Mechanical	Lip Mechanical	Lip Mechanical	Lip Mechanical
Coating Options	Corrgard	Corrgard	Corrgard	Corrgard Nickel
Quiet Series Option	Yes	Yes	No	Yes
Wet Vacuum	No	No	No	Yes

## the DUROFLOW

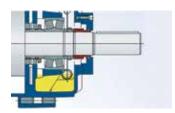

## the RBS SERIES

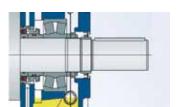

#### Available in 29 Sizes

#### **Options**

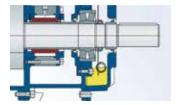

- Stainless steel options
- High vacuum options
- Force feed lubrication
- Pre-package availability
- Special seal options

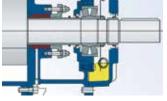

Single Mechanical Seal

Lip Seal

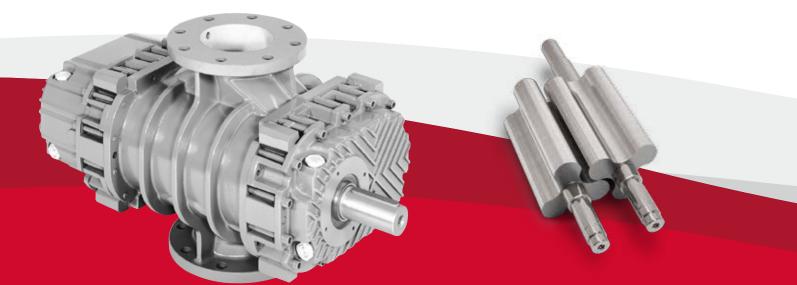

Double Mechanical Seal

Gland Seal

Technology	Specifications							
Tri-Lobe	UP TO  14,570 CFM  15 PSI  15 in Hg					'	-	4

### Design Advantages

#### **Dual Splash Lubrication**

Reliable dual splash lubrication on both the drive and gear ends for longer product life

#### **Helical Gears**

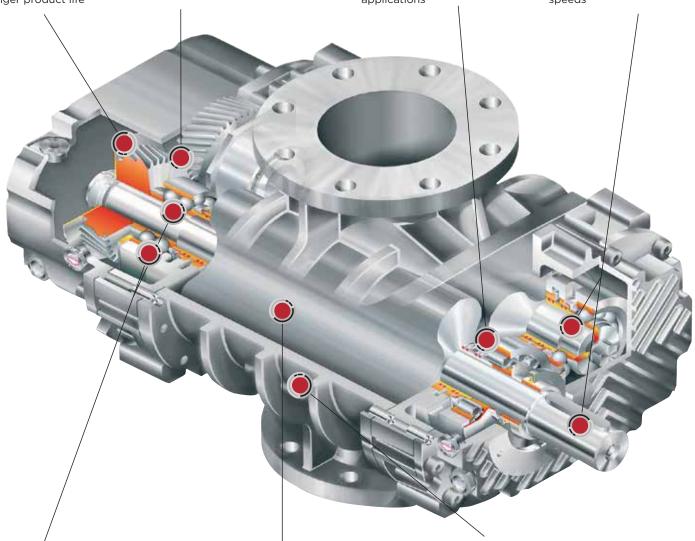

Helical timing gears for smooth and quiet operation at all speeds

#### Leak Free Operation

Piston rings and flinger maximize seal life in continuous severe duty applications

#### **Durable Shafts**

High strength shafts that allow higher operating pressures and rotation speeds

#### Long Life Bearings

Reinforced roller bearings are calculated for a lifespan of 100,000 hours under the most severe operating conditions

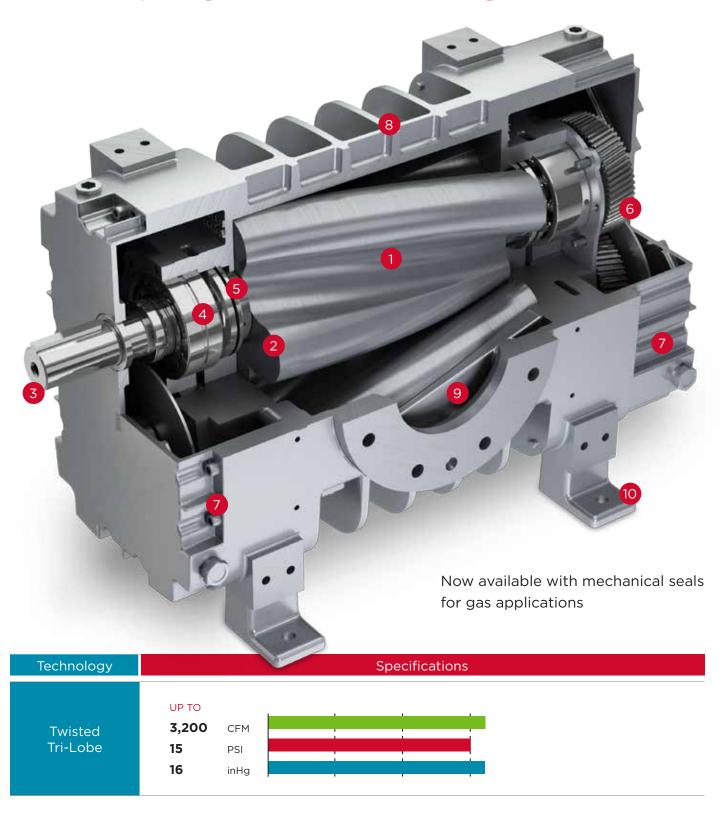

#### Three-Lobe Rotors

Involute Three-Lobe Rotors offer the highest performances and efficiencies

#### Single Piece Cylinder

High strength impeller case is heavily ribbed and machined from a single piece of cast iron to retain internal clearances and improve heat dissipation

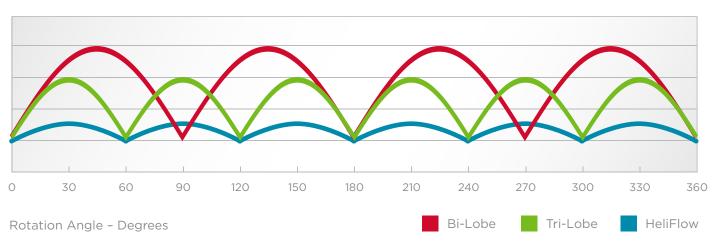

## the HELIFLOW

- Helical rotor profile significantly reduces pulsations for quieter operation
- Solid ductile iron rotor design eliminates potential for vibration due to build-up of ingested material in rotor cavities
- 3 Large diameter shafts provide superior overhung load capacity
- 4 Oversized spherical roller bearings for superior reliability
- 5 Advanced piston ring oil and air seals provide leakfree operation
- 6 Helical alloy steel timing gears provide quiet and smooth mechanical operation at all speeds
- 7 Dual splash lubrication for reduced maintenance intervals and superior durability
- 8 Single piece cylinder with large external fins for heat dissipation and structural integrity
- 9 Unique triangular tuned ports and extra cylinder mass provides greater strength and noise attenuation
- 10 Flexible design allows mounting feet to be attached inward or outward giving it the ability to connect units in a variety of configurations

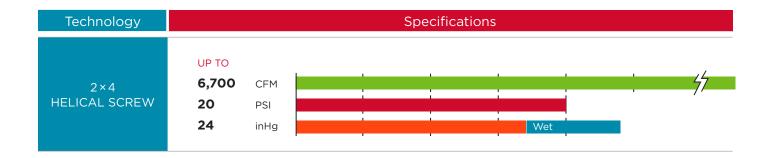

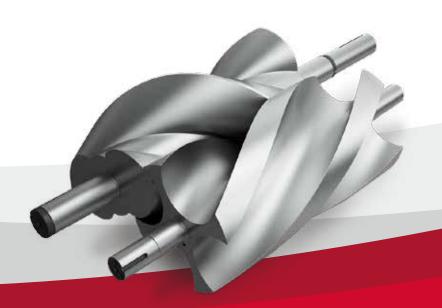

#### REDUCED PULSE = LOWER NOISE = QUIETER OPERATION

## the CYCLOBLOWER

In many comparable applications, the CycloBlower operates more efficiently than straight-lobe blowers

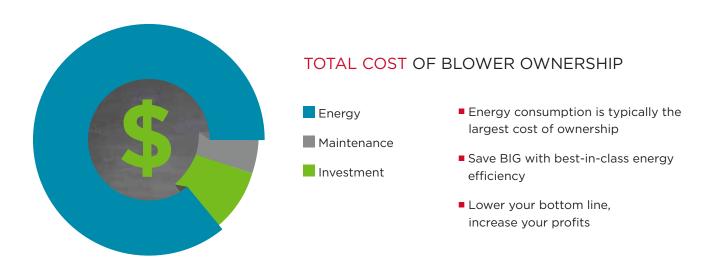

#### CycloBlower: Unique Screw Design

- Decades of proven results
- Quiet, shock-free compression
- Increased efficiencies over straight lobe blowers
- Dependable quality
- High capacity
- Energy savings made possible by screw design
- Ideal for continuous operation
- Can be used for dense phase applications
- Clean air/gas delivery
- Installation flexibility
- Low cost installation

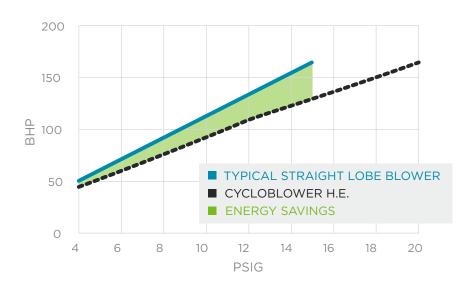

## the CycloBlower H.E.

### BRAKE HORSEPOWER REQUIREMENT COMPARISON at 2000 CFM

#### Innovation Working for You!

In many comparable applications, the CycloBlower operates more efficiently than other straight-lobe blowers. By requiring less brake horsepower (BHP) energy operating cost can be realized and greatly reduced.

INVEST WISELY REDUCE ENERGY

## Save Money

#### CYCLOBLOWER H.E. VS. STRAIGHT LOBE

BLOWER TECHNOLOGY	BHP USED @ 15 PSI	ENERGY COST PER YEAR
Standard Straight Lobe	163	\$106,695
CycloBlower H.E.	129	\$84,604
Iculations based on the cost of providing 2,000 cfm of eration) assuming motor drive efficiency of 90% and e		\$22,090 ANNUAL SAVINGS

# the IQ BLOWER PACKAGES

## Gardner Denver has more blower package options than anyone else

We can help you customize your system to meet your needs. More technology styles provides tailored options for you.

- Smart Design
- Easy Maintenance
- Compact Installation
- Quiet Operation
- Enclosed or Unenclosed Available

## IQ-RB

### SIMPLE

Straight Tri-Lobe

Pressure to 15 PSI

Vacuum to 15 in Hg

5,500 Max CFM

3-500 HP

**Fixed Speed** 

Mechanical Gauges

The leader in every market we serve by continuously improving all business processes with a focus on innovation and velocity
